

PARALLEL SESSIONS PROGRAMME - WEDNESDAY 3rd APRIL

7:45	Shuttles to Curaçao University from Bus Station Otrobanda			
8:00	Registration			
8:45 – 9:00	Opening by authorities			
9:00 – 9:45	Keynote address by CAMILLA P. BENBOW - Vanderbilt University, United States The unfolding of talent from age 12 to 50: Creativity, productivity, and lifestyle of intellectually precocious youth chronicled over four decades Chair: <i>Colin DeYoung</i> Room: Auditorium			
	Auditorium	Room Q1-05	Room Q2-01	Room Q2-02
9:45 – 10:45	SY 1 Pathways and barriers to moral improvement <i>J. Sun, N. Casali, & J. Ratchford (conveners)</i> Would you be happier if you were more moral? <i>J. Sun</i> How can self-knowledge increase goals to improve trait morality? <i>N. Casali</i> Volitional character change <i>J.L. Ratchford</i>	SY 2 The Big Five during adolescence in non-weird countries <i>O.P. John & G. Alves-Mizuta (conveners)</i> Unravelling the aptitude-achievement paradox in PISA's assessment of persistence <i>R. Primi</i> Big Five age differences from 10 to 15 <i>O.P. John</i> Big Five facets predicting achievement test scores <i>G. Alves-Mizuta</i>	IS 1 Efforts toward a more robust personality neuroscience <i>C. DeYoung, J. Wacker, L.D. Smillie (conveners)</i> A neural basis for conscientiousness: Individualizing standard brain maps facilitates replication <i>C. DeYoung</i> Frontal alpha asymmetry as a marker of approach motivation <i>K. Paul</i> Can machine learning-based predictive modelling help understand the neural basis of personality and cognition? <i>K. Hilger</i>	SY 3 Advances in studying measuring personality at work <i>B. Connelly et al. (conveners)</i> Careless procrastinator or rigid perfectionist? <i>Sofie Dupré</i> Thinking aloud about personality <i>A. Perossa</i> Team personality and shared leadership behaviors <i>A. Djurovic</i>
10:45 – 11:15	Coffee/tea			
11:15 – 12:15	SY 4 Network approaches for studying complex concepts: Values, mindfulness & wellbeing <i>J.A. Karl, L. Hartle, T. Bortolini, B. Sololov, & R. Fischer (conveners)</i> Mindfulness and values: unravelling the nexus through the Schwartz framework <i>J.A. Karl</i> Exploring value and wellbeing relationships <i>L. Hartle</i> Values, states and wellbeing: disentangling within- and between-person dynamics <i>R. Fischer</i>	Continued: SY 2 The Big Five during adolescence in non-weird countries What adolescents prefer to do and what they claim they can do well <i>F. De Fruyt</i> Social-emotional teacher characteristics: Personality, gender, age, and professional experience <i>J. Scheirlinckx</i>	Continued: IS 1 Efforts toward a more robust personality neuroscience The impact of loneliness on functional brain network organization across the lifespan <i>N. Spreng</i> Are personality traits associated with indices of neural complexity? <i>L.D. Smillie</i>	SY 5 Structure, relevance and correlations of dimensional (ICD-11) maladaptive traits <i>G. Rossi (chair)</i> Age-invariance of the ICD maladaptive trait structure and connection to personality pathology <i>G. Rossi</i> Longitudinal measurement invariance of the Personality Inventory for ICD-11 <i>P. Heragu</i> Defense mechanisms in the ICD-11 chapter on personality and related traits? <i>A.P. Natoli</i>
12:15 – 13:15	PA 1 Virtues, beliefs <i>Jonathan Ayala (chair)</i> Character strength and virtues in Ecuador, Paraguay, and Peru <i>J.F. Ayala</i> Virtue development and religious development among students <i>S. Schnitker</i> Normative based beliefs as a basis of perceived personality traits changes <i>J. Gutral</i>	PA 2 Methods and structure I <i>U. Schimmack (chair)</i> An item-level hierarchical CFA of 30 facets <i>U. Schimmack</i> Openness' hierarchical structure using traditional and updated bass-ackward approaches <i>Y. Ryakhovskaya</i> Measurement invariance of a Big Five short scale across socioeconomic background <i>E. Meier-Faust</i>	PA 3 Studying & early career I <i>Alena Pridavkova (chair)</i> Two-dimensional analysis of a mathematical task as a basis for cognitive scaffolding in math <i>A. Pridavkova</i> Psychological factors associated with on-time graduation of university students <i>A. Vasquez-Echeverria</i> School performance in primary school children: executive functioning and self-perception in mutual relation <i>I. Kovalcikova</i>	PA 4 Self-regulation I <i>Erik Müller (chair)</i> Assimilation and immunization of negative affective expectancies in neuroticism <i>E. Müller</i> The Big Five and panic buying during COVID-19 <i>J.M. Roos</i> Greedy gamblers? Associations between dispositional greed and problem gambling <i>J.A. Weller</i>
13:15 – 14:15	Networking Lunch			
14:15 – 15:00	Keynote address by CHRISTOPHER J. SOTO - Colby College, United States How is a trait (not) like a skill? Similarities and differences in structure, assessment, development, and outcomes Chair: <i>Velichko. Fetvadjev</i> Room: Auditorium			
15:00 – 16:00	PA 5 Virtues, beliefs, cross-cultural research II <i>Erica Baranski (chair)</i> Personality and religiosity in context <i>E. Baranski</i> Structure of basic beliefs about the world <i>A. Nilsson</i>	PA 6 Methods and structure II <i>David Hughes (chair)</i> The facet MAP: Towards a taxonomy of personality facets <i>D. Hughes</i> Using AI to find identity clusters from freely generated self-descriptions, and studying the relation between the clusters and temperament, character, and health <i>S. Sikstrom</i> Alternative metaphors for validity: Spear fishing versus fishing nets <i>W. Revelle</i>	PA 7 Studying & early career II <i>Kevin Hoff (chair)</i> Professional interests' differences among gifted and regular students, and gender influences <i>T. de Cassio Nakano</i> Sort-term personality development and early career success <i>K. Hoff</i> Learning-related uncertainty in doctoral students <i>H.K. Jach</i>	SY 6 Studying historical personality dynamics in literature <i>R. Fischer (chair)</i> Tracing the evolution of personality cognition in early human civilizations: an analysis of the Gilgamesh epic <i>M. Luczak-Roesch</i> Personality concepts in 20th century American literature: Examining the novels of F. Scott Fitzgerald <i>S. Bauditz</i> Agency and Communion across time in English-language literature <i>V. Fetvadjev</i>
16:00 – 17:00	Poster session I & Coffee/tea			
17:15	Shuttle to Bus Station Otrobanda			

PARALLEL SESSIONS PROGRAMME - THURSDAY 4th APRIL

8:00	Shuttles to Curaçao University from Bus Station Otrobanda			
8:15	Registration			
9:00 – 9:45	Keynote address by ARIEL MALKA - Yeshiva University, United States Understanding relationships between personality and political preferences: The central role of identity processes operating in political information environments Chair: <i>Karen Saviotti</i> Room: Auditorium			
	Auditorium	Room Q1-05	Room Q2-01	Room Q2-02
9:45 – 10:45	IS 2 Contemporary perspectives on Personality pathology <i>B. De Clercq (chair & discussant)</i> Socio-affective dynamics of psychopathy in daily life <i>C.E. Vize</i> The European multi-lab life story study <i>M. Lind</i> A network analysis of personality functioning and narrative identity <i>K.M. Balzen</i>	IS 3 Personality structure <i>B. Mlačić (chair & discussant)</i> The high dimensionality structure of Polish verbs <i>N. Toruj</i> Shades of traits across languages: comparison of structures of behavioral items <i>B. De Raad</i>	PA 8 Personality & environment I <i>Paul Irwing (chair)</i> Linking aversive personality to climate change opinion and environmental performance <i>Z. Horlacher</i> Linking historical rice farming to aversive personality <i>L. Lilleholt</i> Towards an index of adaptive personality regulation <i>P. Irwing</i>	SY 7 Personality and interpersonal dynamics in social interactions <i>E. Bleckmann (chair)</i> The impact of personality traits on interpersonal dynamics at zero acquaintance <i>A. Halberstadt</i> Origins and development of meta-liking in initial social interactions: The role of personality and social experiences <i>E. Bleckmann</i> I am who I am with: The link between social interaction partners and personality states in adolescence <i>L. Wiczorek</i>
10:45 – 11:15	Coffee/tea			
11:15 – 12:15	Continued: IS 2 Contemporary perspectives on Personality pathology Developmental pathways from childhood callous-unemotional traits toward adult criterion A empathy and intimacy functioning <i>R. Franssens</i> The predictive value of caregiver-child interactions on developmental personality pathology <i>L. Krakau</i>	Continued: IS 3 Personality structure Trait dictionaries and population-specific personality lexicons <i>J. Karl</i> Are Stability and Plasticity the result of blended variables? <i>C. DeYoung</i> Adolescent stress and personality: A cross-lagged relationship of Big Five dimensions and subjective stress in adolescence <i>B. Mlačić</i>	SY 8 Understanding social skills – Differentiation, predictive validity and behavioral assessment <i>S.M. Breil (chair)</i> Contextualized soft skills outperform noncontextualized personality traits <i>D. Danner</i> Do we have insights in our social skills? <i>S. Breil</i> Investigating social skills at scale: a data driven approach <i>E. Grunenber</i>	PA 9 Personality & environment I <i>Magnus Roos (chair)</i> Personality and car pooling <i>J.M. Roos</i> Discovering the catalysts: personality traits leading to system transformation for environmental resilience <i>A. Lammell</i> Examining Personality by geography interactions for effects on pro-environmental behaviors <i>K. Garner</i>
12:15 – 13:15	SY 10 Genomics of personality and intelligence <i>L. Penke, W.D. Hill, & C. Xia (conveners)</i> The impact of cognitive ability and socioeconomic status on brain structure <i>W.D. Hill</i> The contribution of mitochondria to neuroticism in UK biobank <i>C. Xia</i> Conceptualizing personality traits and intelligence in the genomic era <i>L. Penke</i>	SY 9 Navigating the dynamics of personality: Innovative approaches in measurement, recruitment, and methodology <i>A. Büchner (chair)</i> Between Situation Perception and Perception Major Life Events: Understanding Daily Events <i>K. Fliedner</i> Exploring the efficacy and the effects of incentives in personality research participation <i>C. Schild</i> Capturing Dynamic Conceptualizations of Personality Traits in Cross-Sectional Assessments <i>A. Büchner</i>	PA 11 Self-regulation II <i>Henning Bang (chair)</i> The relation between personality traits & self-control: the moderating role of neuroticism <i>F. Nilson</i> Partners' personality and conflict behaviors <i>S. Baardstu</i> Would you call me for a job interview? AI-methods for the analyses of recruiters' own words and ratings of personal letters and pictures <i>S. Sikström</i>	
13:15 – 14:15	Networking Lunch			

PARALLEL SESSIONS PROGRAMME - THURSDAY 4th APRIL

14:15 – 15:00	Keynote address by ROBERTO COLOM - Universidad Autonoma de Madrid, Spain The relevance of the interplay between psychometrics and neuroscience for the analyses of individual differences in intelligence and cognitive abilities			
	Chair: <i>Fabia Morales-Vives</i>			
	Room: Auditorium			
	Auditorium	Room Q1-05	Room Q2-01	Room Q2-02
15:00 – 16:00	PA 12 Perception, social context, gender II <i>Ryan Lundell-Creagh (chair)</i> Does how you feel depend on who you are? <i>R. Lundell-Creagh</i> Think social entrepreneur, think fe-/male? <i>C. Palmer</i> Gender differences on Big Five personality factors in an elderly Brazilian sample <i>K. Saviotti</i>	PA 13 Leadership and work I <i>Petri Kajonius, (chair)</i> Leadership personality at work: The Big Five linking work engagement and performance <i>P. Kajonius</i> Tenebrous tools: Leader instrumentality in the relation between psychopathy, charisma and work engagement <i>B. Wisse</i> When Machiavellian leaders fear losing power; effects on abusive power and subordinate burnout <i>D. Rus</i>	SY 11 Advances in sensory processing sensitivity research <i>Corina. Greven (chair)</i> <i>Karl Heinz Renner (discussant)</i> Self-reported differences in Sensory Processing Sensitivity and a heightened sensory sensitivity throughout the day across modalities and contexts <i>S. Weyn</i> Sensory processing sensitivity associations with mental and somatic health <i>C. Damatac</i> Hemodynamic changes in the prefrontal cortex during n-back tasks in high and low sensitive students <i>M. Baryla-Matejczuk</i>	
16:00 – 17:00	POSTER session II & Coffee/tea			
17:15	Shuttle to Bus Station Otrobanda			

PARALLEL SESSIONS PROGRAMME - FRIDAY 5th APRIL

8:00	Shuttles to Curaçao University from Bus Station Otrobanda			
8:15	Registration			
9:00 – 9:45	Keynote address by GERARD SAUCIER - University of Oregon, United States: A new frontier: Fine-grained personality factors across cultures			
	Chair: <i>B. Mlačić</i>			
	Room: Auditorium			
	Auditorium	Room Q1-05	Room Q2-01	
9:45 – 10:45	IS 4 Drivers of personality development: The role of intentional change, life events and epigenetic change <i>C. Kandler (chair)</i> Does motivation matter? Towards understanding intentional personality change in adolescence <i>E. Bleckmann</i> Do traits and motives differ in their changeability and susceptibility to life events? <i>C. Kandler</i> Moving in together was great, wasn't it, honey - Convergence of life event perception and relationship satisfaction <i>K. Fliedner</i>	PA 14 Artificial intelligence I <i>Sverker Sikström (chair)</i> Five small words capture the Big Five: Personality assessment using NLP <i>S. Sikström</i> Automating human coding of implicit motives of power, achievement, and affiliation using language analysis <i>M. Runge</i> Large Language Models are good judges of personality <i>M. Kosinski</i>	PA 15 Dark traits <i>Ariela Costa (chair)</i> A cross-section study on the Dark Triad levels across the lifespan <i>A. Lima-Costa</i> Filling the gap: Narcissistic fusion and servility as a missing part of the narcissistic personality spectrum? <i>M. Piotrowska</i> Could maladaptive personality traits be considered unipolar constructs? The case of callousness <i>F. Morales-Vives</i>	
10:45 – 11:15	Coffee/tea			

PARALLEL SESSIONS PROGRAMME - FRIDAY 5th APRIL

	Auditorium	Room Q1-05	Room Q2-01
11:15 – 12:15	<p>Continued: IS 4 Drivers of personality development: The role of intentional change, life events and epigenetic change</p> <p>Patterns and sources of links between stability and change in personality and epigenetic aging <i>J. Instinske</i></p> <p>PA 17 Individuality in the living <i>Xxx (chair)</i></p> <p>Behavioral individuality in visual behavior of drosophila melanogaster <i>G. Linneweber</i></p> <p>Overcoming low status or maintaining high socio-economic status: Association between Socioeconomic status & honor <i>A. Sanchez Rodriguez</i></p>	<p>PA 20 Wellbeing, imagination, loneliness <i>Katrijn Brenning (chair)</i></p> <p>The role of mothers' and fathers' perfectionism and emotional dysregulation in the co-occurrence between work-family conflict and parental burnout <i>K. Brenning</i></p> <p>The pathology of imagination: Picturing the worst <i>A. Castillo</i></p> <p>Genetic and environmental contributions to the associations between personality and loneliness <i>C. Freilich</i></p>	<p>PA 19 Interventions II <i>Xxx (chair)</i></p> <p>Who seeks out a mindful mind? Personality traits, meditation practice, attitudes, and barriers to practice <i>Y. Ryakhovskaya</i></p> <p>Personality traits and psychedelic experience: "One of the 5 most meaningful experiences in life?" <i>P. Kajonius</i></p> <p>Effect of a personality-informed intervention on quality of life in pulmonary rehabilitation <i>S. Kuss</i></p>
11:15 – 12:15	<p>SY 12 Exploring human experiences for understanding stable individual differences <i>L. Hartle (convener)</i></p> <p>Mapping relationships of non-ordinary experiences and mental health <i>L. Hartle</i></p> <p>Unveiling the spectrum of non-ordinary experiences: frequency, clustering, mechanisms, and wellbeing implications <i>J. Karl</i></p> <p>Validation of the inventory for NonOrdinary Experiences <i>R. Fischer</i></p>	<p>PA 21 Leadership & work II <i>Tunde Ogunfowora (chair)</i></p> <p>Narrow vs broad personality traits in the prediction of emergent leadership <i>H. Follesdal</i></p> <p>Interaction between personality and response format in standardized performance testing <i>S. Breuer</i></p> <p>The HEXACO at work Inventory: Scale development and initial construct validity evidence <i>T. Ogunfowora</i></p>	<p>PA 22 Pathology II <i>Hans Markowitsch (chair)</i></p> <p>Belle indifference – A personality feature in dissociative amnesia <i>A. Staniloiu</i></p> <p>Common personality features of patients with dissociative amnesia <i>H.J. Markowitsch</i></p> <p>Perfect image, depressed mood: Explanatory pathways from perfectionistic self-presentation to adolescent depression through online social connection and in-person social support <i>M. Blackburn</i></p>
13:15 – 14:15	Networking Lunch		
14:15 – 15:15	<p>SY 13 Homo Felix: From genes to values <i>R.B. Nes (chair)</i></p> <p>The happy personality revisited <i>E. Roysamb</i></p> <p>Journey of love: Exploring stability and change in relationship satisfaction, wellbeing and illbeing <i>L. Mayerhofer</i></p> <p>Surrounded by genes: The interplay of core family genetic profiles on mothers' wellbeing <i>R.B. Nes</i></p>	<p>PA 23 Interventions I <i>Esther Moszeik (chair)</i></p> <p>The conscientious meditator – practice, practice all is coming: personality and yoga nidra meditation <i>E.N. Moszeik</i></p> <p>What works best for whom? Effectiveness of positive psychology interventions <i>K.H. Renner</i></p> <p>Personality and efficacy of stress management interventions <i>B. Canada</i></p>	<p>PA 24 Dark traits & Morality <i>Gouwy (chair)</i></p> <p>Sexual life of narcissists: sexual satisfaction and sexual narcissism in the context of a circumplex model <i>J. Piotrowski</i></p> <p>A meta-analysis on the Vulnerable <i>Dark Triad</i> <i>B. Bonfa-Araujo</i></p> <p>Development of moral compass <i>M.C. Gouwy</i></p>
15:15 – 16:30	<p>Continued: SY 13 Homo Felix: From genes to values</p> <p>Multiple social factors are associated with wellbeing, when accounting for shared genetic and environmental confounding <i>L.D. Bjorndal</i></p> <p>The good life network: A value-based approach to wellbeing <i>I. Teulings</i></p> <p>Can the Schwartz value questionnaire tell us something about hedonic and eudaimonic wellbeing? <i>J. Vitterso</i></p>	<p>SY 14 Understanding individual differences in within-person contingencies <i>S. Humberg (chair)</i></p> <p>Individual differences in situational contingencies <i>N. Kuper</i></p> <p>Methods for testing effects of contingencies <i>S. Humberg</i></p> <p>What calibrates the sociometer? Understanding self-esteem contingencies in daily life <i>K. Utesch</i></p> <p>A machine learning approach to the prediction of individual differences in contingencies <i>O. Hätscher</i></p>	<p>SY 15 Advancing well-being research with momentary assessments <i>J. Scharbert (chair)</i></p> <p>If you were happy and you know it, clap your hands! Testing the Peak-End rule for retrospective judgments of wellbeing <i>J. Scharbert</i></p> <p>Social interactions and momentary wellbeing in daily life <i>L. Kroencke</i></p> <p>The connection between social interactions and momentary sense of purpose <i>G. Pfund</i></p> <p>Is it better to be Extraverted or Flextraverted; On the adaptation to situation-specific extraversion optimality <i>K. Krautter</i></p>
16.30-17.00	Coffee/Tea		
17:15	Shuttle to Bus Station Otrobanda		
20:00	Closing Dinner
